Role mapping process overview

General information

- *Business user* = user, who is using any application/service from BTP
- *Platform user* = user, who is admin on BTP cockpit or for Cloud admin tools or BTP command line tools
- Direct role to user assignment on BTP only for initial onboarding and POCs
- Services must use BTP / Entra role mapping to avoid manual activities for assigning & revoking authorizations
- Authentication is always via Entra ID

Role mapping process overview (technical view)

- **Overview of needed steps**

- Activate new BTP service / application -> SAP Managed Platform
- Create temp. role collection (if not delivered by SAP) -> SAP Managed Platform
- Assign role collection to admins / Application user directly -> SAP Managed Platform
- Request Entra ID Rolle -> Application Owner
- Map new Entra ID Rolle to CIS Application in Entra ID -> IAM team
- Map BTP role collection to new Entra ID role in BTP cockpit -> ITSec Authorization Management
- Map SAP role to Entra ID role -> IAM team & ITSec Authorization Management

After role mapping

- Delete direct role assignment in BTP cockpit -> ITSec Authorization Management

- **Contacts:**

- SAP Managed Platform = PO Vanderlei Gomes
- ITSec Authorization Management = PO Kristin Eckstein
- IAM team = PO Sebastian Scharf

Role mapping example

- Rolemapping between *BTP Role Collection (1)* and *Entra ID Group (2)*

1		2	
Name	Description	Roles	User Groups
~fx2_(SGD)MENU_BC_INFORMTECHNOLOGY	IT catalogues		RL-WZ-FD2-MENU_BC_INFORM...
~fx2_(SGD)MENU_IT_INFORMTECHNOLOGY	Information Technology		RL-WZ-FD2-MENU_IT_INF...
~fx2_BC_APP_0006397=0000038_SW	BC_SGD_BC_FICO_SW		RL-DEV_CA-S4SW RL-DEV_IT-S4SW

- Entra ID Group is created mapped to SAP Role and can be requested via SAMS

Gruppenbeschreibung ⓘ

BTP Role request process

- As soon BTP role collection was mapped to EntraID group and SAMS / SAP is implemented, Schaeffler standard process for requesting roles can be used.
- All needed information about that standard process can be found in Sconnect (SAMS / SAMS 2.0)
